

## **Avista Requests Natural Gas Rate Decrease for Oregon Customers in Annual Cost Adjustment Filing**

08/03/15

### **Request Reflects Change in the Wholesale Cost of Natural Gas**

SPOKANE, WA -- (Marketwired) -- 08/03/15 -- Avista's (NYSE: AVA) approximately 98,000 customers in Oregon could see an overall decrease of 13.3 percent in their natural gas rates effective Nov. 1, 2015, if the Public Utility Commission of Oregon (PUC) approves the company's annual Purchased Gas Cost Adjustment (PGA) and related filings.

If the requests are approved, Avista residential customers using an average of 46 therms a month could expect their bill to decrease by \$7.55, or 12.1 percent, for a revised monthly bill of \$54.92 beginning Nov. 1, 2015. Avista's natural gas revenues would decrease by \$13.8 million to cover the decreased natural gas costs. The company does not mark up the cost of natural gas purchased to meet customer needs, so there is no impact on company earnings.

PGAs are filed each year to balance the actual cost of wholesale natural gas purchased by Avista to serve customers with the amount included in rates. This includes the natural gas commodity cost as well as the cost to transport natural gas on interstate pipelines to Avista's local distribution system. The primary driver for the company's requested decrease is a reduction in natural gas commodity costs due to a warmer than normal winter, an abundance of natural gas held in storage, and continued high production levels of natural gas.

In addition to the PGA request, Avista also proposed two smaller rate adjustments related to demand side management program funding and intervener funding.

About 40 percent of an Avista natural gas customer's bill is the combined cost of purchasing natural gas on the wholesale market and transporting it to Avista's system. These costs fluctuate up and down based on market prices. The costs are not marked up by Avista. The remaining 60 percent covers the cost of delivering the natural gas -- the equipment and people needed to provide safe and reliable service.

#### **About Avista Corp.**

Avista Corp. is an energy company involved in the production, transmission and distribution of energy as well as other energy-related businesses. Avista Utilities is our operating division that provides electric service to 369,000 customers and natural gas to 329,000 customers.
