

Avista Reaches Settlement in Oregon Natural Gas Rate Request

05/17/17

If approved, rate adjustment would be effective Oct. 1, 2017

SPOKANE, WA -- (Marketwired) -- 05/17/17 -- Avista (NYSE: AVA) and all other parties involved in the company's natural gas general rate filing have reached a settlement agreement that, if approved by the Public Utility Commission of Oregon (PUC), would conclude the proceedings for the general rate request filed on Nov. 30, 2016. If the settlement agreement is approved, new rates would take effect on Oct. 1, 2017.

"We are pleased that all parties were able to reach a joint recommendation to the commission that is fair and reasonable. The outcome is a settlement that, if approved by the commission, represents positive outcomes for our customers, the company and our shareholders," said Dennis Vermillion, Avista Corp. senior vice president and president of Avista Utilities.

The settlement proposes that, effective Oct. 1, 2017, Avista would receive an increase in rates designed to increase its annual billed revenues by 3.7 percent or \$3.5 million.

The proposed settlement agreement reflects a 9.4 percent return on equity (ROE) and a 50 percent equity layer. The rate of return is 7.35 percent.

Residential Customer Bill

If the settlement is approved by the PUC, a residential customer using an average of 47 therms per month would see a \$1.57 per month increase, or 2.8 percent, for a revised monthly bill of \$57.75. The proposed monthly bill includes an increase in the monthly basic charge from \$9.00 to \$10.00.

Avista's Original Request

Avista's original request filed with the PUC on Nov. 30, 2016 included an increase in natural gas base rates for customers of 9.0 percent or \$8.5 million and was based on a proposed rate of return of 7.83 percent with a common equity ratio of 50 percent and a 9.9 percent return on equity. In Avista's reply testimony filed April 6, 2017, the company revised its request from \$8.5 million to \$6.7 million.

The majority of Avista's general rate request filing was related to the need to expand and replace the facilities used to serve customers. This included, among other things, increased investment to replace certain natural gas service pipe, completion of a pipeline reinforcement project and rerouting of a high pressure pipeline.

Avista serves approximately 99,000 customers in Oregon.
