

Avista reaches multi-party settlement in Idaho general rate cases

10/23/17

New rates would take effect beginning Jan. 1, 2018

SPOKANE, Wash., Oct. 23, 2017 (GLOBE NEWSWIRE) -- Avista (NYSE:AVA) and multiple parties to the company's electric and natural gas general rate cases have reached a settlement agreement that has been submitted to the Idaho Public Utilities Commission (IPUC or Commission) for its consideration. If approved, new rates would take effect Jan. 1, 2018 and Jan. 1, 2019.

If approved, the settlement agreement is designed to increase annual billed electric revenues by \$12.9 million, or 5.6 percent, effective Jan. 1, 2018, and by \$4.5 million, or 2.3 percent, effective Jan. 1, 2019. For natural gas, the settlement agreement is designed to increase annual billed revenues by \$1.2 million, or 1.9 percent, effective Jan. 1, 2018, and by \$1.1 million, or 1.8 percent on Jan. 1, 2019. The settlement revenue increases are based on a 9.5 percent return on equity (ROE) with a common equity ratio of 50 percent.

"This settlement agreement will provide new rates in Idaho that are fair and reasonable for our customers, the Company and our shareholders," said Dennis Vermillion, Avista Corp. senior vice president and president of Avista Utilities. "This outcome provides us the opportunity to continue to earn a fair return in Idaho and supports Avista's efforts to invest in and maintain our infrastructure so we can continue to provide the reliable energy our customers expect. In addition, the two-year rate plan would create a stay-out period where Avista would not file a new general rate case for a new rate plan to be effective prior to Jan. 1, 2020, providing customers with some predictability in their expected future energy prices."
