

Avista Receives Approval of the All-Party Settlement in Idaho Electric and Natural Gas Rate Requests

December 21, 2015

Settlement Was Filed Oct. 19, 2015; New Rates Will Take Effect Jan. 1, 2016

SPOKANE, WA -- (Marketwired) -- 12/21/15 -- Avista (NYSE: AVA) received approval from the Idaho Public Utilities Commission (IPUC or Commission) on the all-party settlement that was filed on Oct. 19, 2015, concluding the company's electric and natural gas rate requests filed on June 1, 2015. New rates will take effect on Jan. 1, 2016.

The approved rates are designed to increase annual electric base revenues by \$1.7 million, or 0.7 percent, and annual natural gas base revenues by \$2.5 million, or 4.1 percent. The revenue increase is based on a 9.5 percent return on equity (ROE) with a common equity ratio of 50 percent.

"The Commission's decision provides electric and natural gas rates and accounting treatment in Idaho that are fair and reasonable for our customers, the Company and our shareholders," said Dennis Vermillion, Avista Corp. senior vice president and president of Avista Utilities. "It allows us the opportunity to continue to earn a fair return in Idaho and supports Avista's efforts to make capital investments so we can continue to provide the reliable energy our customers expect."

Fixed Cost Adjustment (FCA)

The approval includes electric and natural gas Fixed Cost Adjustment (FCA) mechanisms. The FCA is a decoupling mechanism designed to break the link between a utility's revenues and a consumer's energy usage. The company's actual revenue, based on kilowatt-hour and therm sales, will vary, up or down, from the level set by the IPUC. This could be due to changes in conservation, weather or the economy.

Under the FCA mechanism, the company's electric and natural gas revenues will be adjusted each month to reflect revenues based on the number of customers, rather than kilowatt-hour and therm sales. The difference between revenues based on sales and revenues based on the number of customers will result in either surcharges or rebates to customers in the following year.

Residential Customer Electric Bill

A residential customer using an average of 929 kilowatt hours per month can expect to see a bill increase of \$0.75 per month, or 0.9 percent, for a revised monthly bill of \$85.74. The basic charge will not change.

As a part of its original application, Avista proposed to use \$5.6 million related to its 2014 Idaho electric earnings sharing to extend a \$2.8 million rebate customers are currently receiving in 2015. With this decision, that rebate will be extended through 2017.

The electric increase by service schedule for 2016 is as follows:

Rate Schedule	2016 Billing Increase
Residential Service - Schedule 1	0.9%
General Service - Schedules 11 & 12	0.5%
Large General Service - Schedules 21 & 22	0.6%
Extra Large General Service - Schedule 25	0.6%
Extra Large General Service 25P - Schedule 25P	0.4%
Pumping Service - Schedules 31 & 32	0.7%
Street & Area Lights - Schedules 41 - 49	0.8%
Total	0.7%

Residential Customer Natural Gas Bill

A residential natural gas customer using an average of 61 therms per month can expect to see a \$3.20, or 6.2 percent, bill increase for a revised monthly bill of \$54.48. Included in this is a \$1.00 per month increase in the general service schedule basic charge, from \$4.25 to \$5.25 per month.

As a part of its application, Avista proposed to use \$0.2 million related to its 2014 natural gas earnings sharing to replace a portion of a \$1.2 million rebate customers are currently receiving in 2015. With this decision, customers will receive that rebate in 2016.

Natural gas increase by service schedule for 2016, which includes the effects of the Nov. 1, 2015 Purchased Gas Cost Adjustment, which reduced overall rates by 14.5 percent, is as follows:

Rate Schedule	2016 Billing Increase Inclusive of New and Expiring Credits
General Service - Schedule 101	6.3%
Large General Service - Schedules 111 & 112	3.9%
Interruptible Service - Schedules 131 & 132	6.3%
Transportation Service - Schedule 146	3.1%
Total	5.6%

Avista serves more than 127,000 electric and nearly 78,100 natural gas customers in Idaho.

Customer Assistance

To assist customers in managing their energy bills, Avista offers services such as comfort level billing, payment arrangements and Customer Assistance Referral and Evaluation Services (CARES). CARES provides assistance to special-needs customers through referrals to area agencies and churches for help with housing, utilities, medical assistance and other needs. To learn more, visit www.avistautilities.com. There, customers can also find information on energy efficiency rebates and incentives, as well as online tools for managing energy use.
